1. Press **MENU** when the phone is idle.
2. Press ▼ or ▲ until the screen displays the desired feature menu.
3. Press **SELECT** to enter that menu.

• To return to the previous menu, press **CANCEL** or **BACK**.
• To return to idle mode, press and hold **CANCEL**.
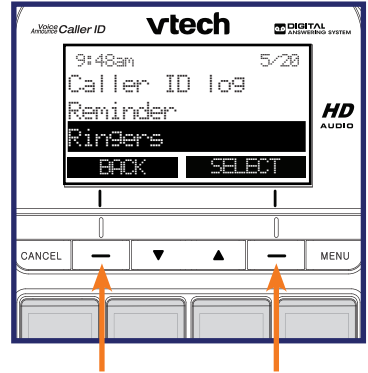

Press the **softkey** to select the corresponding item displayed above the key.

Set date and time

The telephone base will prompt you to set date and time when it is initially powered up. Follow Step 3 to Step 5 below to set them.

1. Press **MENU**.
2. Scroll to **Set date/time**, then press **SELECT**.
3. Enter the month, date and year, then press **NEXT**.
4. Enter the hour and minute.
5. Scroll to select **AM** or **PM**, then press **SAVE**.

Photo speed dial

There are four photo speed dial keys on the telephone base. The photo speed dial keys **1** and **2** on the pendant correspond to the photo speed dial keys **1** and **2** on the telephone base, respectively.

We recommend you store two contacts that you may need to call them more often or immediately to photo speed dial keys **1** and **2**.

Telephone base   Pendant
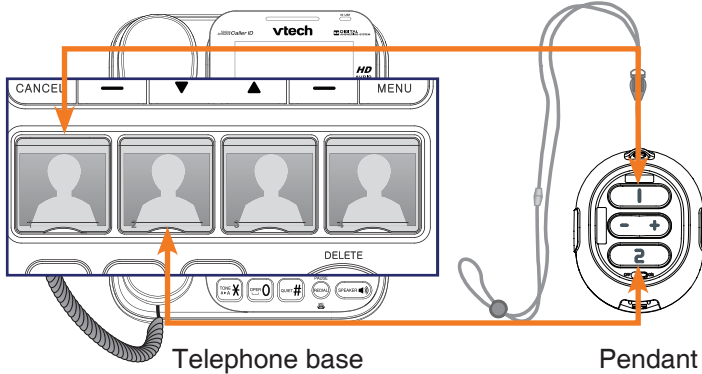

To set photo speed dial (only applicable to models with a pendant):

If your product package includes a pendant, the telephone prompts you to set photo speed dial **1** and photo speed dial **2** once it is initially powered up.

1. When the telephone base displays **Set Photo Speed Dial 1 and Pendant memory 1**, press **YES**.
2. Enter the number, then press **NEXT**.
