

# DM1111 DM1111-2 Enhanced Range Digital Audio Monitor

## vtech® User's manual (Canada version)

For more support information

## CONGRATULATIONS

on purchasing your new VTech product. Before using this product, please read **Important safety instructions**.

This manual has all the feature operations and troubleshooting necessary to install and operate your new VTech product. Please review this manual thoroughly to ensure proper installation and operation of this innovative and feature-rich VTech product.

For support, shopping, and everything new at VTech, visit our website at [www.vtechcanada.com](http://www.vtechcanada.com).

## WHAT'S IN THE BOX

## IMPORTANT SAFETY INSTRUCTIONS

The applied nameplate is located at the bottom of the baby unit's base.

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- Follow all warnings and instructions marked on the product.
- Adult setup is required.
- CAUTION:** Do not install the baby unit at a height above 2 meters.
- This product is not a substitute for adult supervision of the infant. Supervising the infant is the parent's or caregiver's responsibility. This product could cease operating, and therefore you should not assume it will continue working properly for any given period of time. Further, this is not a medical device and should not be used as such. This product is intended to assist you in supervising your baby.
- Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or shower.
- CAUTION:** Use only the battery provided. There may be a risk of explosion if a wrong type of battery is used for the parent unit. The battery cannot be subjected to high or low extreme temperature and low air pressure at high altitude during use, storage or transportation. Disposal of battery into fire or a hot oven, or mechanically crushing or cutting or the battery can result in an explosion. Leaving the battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid of gas. Battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas. Dispose of used battery according to the information in **The RBRC seal**.
- Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product.

Power adapter information:  
Output: 6V DC 400mA  
VTECH TELECOMMUNICATIONS LTD.  
Model: VT05UUS06040

Rechargeable battery information:  
2xAAA 2.4V 750mAh  
YIYANG CORUN BATTERY CO LTD.  
Model: NI-MHAAA750\*2

- The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.
- Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
- Unplug the power cords before replacing battery. Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situation.
- Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or crimped.
- This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company.
- Do not overload wall outlets or use an extension cord. Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
- This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.
- Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
- To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.
- You should test the sound reception every time you turn on the units or move one of the components.
- Periodically examine all components for damage.
- There is a very low risk of privacy loss when using certain electronic devices, such as baby monitors, cordless telephones, etc. To protect your privacy, make sure the product has never been used before purchase, reset the baby monitor periodically by powering off and then powering on the units, and power off the baby monitor if you will not use it for some time.
- Children should be supervised to ensure that they do not play with the product.
- The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

### SAVE THESE INSTRUCTIONS

#### Cautions

- Use and store the product at a temperature between 32°F and 104°F.
- Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source.
- Batteries should not be exposed to excessive heat such as bright sunshine or fire.
- Warning—Strangulation Hazard—** Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 3 ft (0.9m) away). Do not remove this tag.
- Never place the baby unit(s) inside the baby's crib or playpen. Never cover the baby unit(s) or parent unit with anything such as a towel or a blanket.
- Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible: wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless telephones.

Precautions for users of implanted cardiac pacemakers  
Cardiac pacemakers (applies only to digital cordless devices):  
Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

- Pacemaker patients**
    - Should keep wireless devices at least six inches from the pacemaker.
    - Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.
- WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.
- Electromagnetic fields (EMF)**  
This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.

## 1 CONNECT THE BABY MONITOR

### Install the parent unit battery

The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, make sure you use both battery and AC power at the same time. With the battery alone, the parent unit can cordlessly run for a short time only.

#### NOTES

- Use only the battery supplied with this product.
- If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

### Replace the battery

To replace the battery, press down on the battery compartment cover and pull it out, then follow the steps above to install the battery.

### Connect the baby monitor

#### NOTES

- Use only the power adapters supplied with this product.
- Make sure the baby monitor is not connected to a switch controlled electric outlet.
- Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.
- Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.
- Make sure the **POWER** light is on after the power plug is fully inserted into the power jack of the baby unit.
- With audio reminder feature preset to on, the parent unit plays an audio reminder when it is connected to a baby unit.

### Charge the parent unit battery

When you have connected and turned on the baby unit and all the parent units, they will enter pairing mode automatically. It takes around 10 minutes for the pairing process to complete. When the parent unit and baby unit are successfully paired, both their power LEDs are on steadily. The baby monitor is ready to use.

#### NOTES

- Before using the baby monitor for the first time, charge the parent unit battery for 12 hours.
- It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time, turn the parent unit off while charging.
- The standby time varies depending on the sensitivity level you set, your actual use and the age of the battery.
- The parent unit beeps twice every 10 minutes and the light flashes in red when the battery is low. Charge the parent unit battery without interruption for at least 30 minutes.
- To keep the battery charged, connect it to AC power when not in use.

## 2 BEFORE USE

#### NOTE

- This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such.

### Test your baby monitor

You may test the baby monitor before initial use, and at regular times thereafter.

#### CAUTION

- For hearing protection, make sure the parent unit is more than 6.5 feet (2 meters) away from the baby unit. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press on the parent unit to lower or mute the noise.

- Make sure your baby unit and parent unit are on.
- Speak towards the microphone of the baby unit. You will hear the sound at the parent unit, and see the visual sound indicators light up.

#### NOTE

- When the **POWER/LINK** LED light flashes, move the parent unit closer to the baby unit (observe the minimum distance of 6.5 feet / 2 meters). You can also check if the baby monitor is connected to a live power socket and switched on.

#### TIP

- Increase the speaker volume of the parent unit if you cannot hear the sounds transmitted from the baby units.

### Positioning the baby monitor

#### CAUTION

- Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's crib or playpen.

#### NOTE

- To avoid interference from other electronic devices, place your baby monitor far away from devices such as wireless routers, microwaves, cell phones and computers.

- Place the baby units more than 3 feet (1 meter) away from your baby.
- Place the parent unit more than 6.5 feet (2 meters) away from the baby unit to avoid screeching noise.

#### CAUTION

- The default volume of your parent unit is **Level 3**, and the maximum volume is **level 5**. If you experience high-pitched screeching noise from your baby monitor while positioning:
  - Make sure your baby units and parent unit are more than 6.5 feet (2 meter) apart, OR
  - Turn down the volume of your parent unit.

### Operating range

The operating range of the baby monitor is up to 1,500 feet (450 meters) outdoors or 160 feet (50 meters) indoors. The actual operating range may vary depending on the environmental conditions and other interferences such as walls, doors and other obstructions.

## 3 USING THE BABY MONITOR

### Power on or off the baby unit

- Press until the **POWER** light turns on.
- Press until the **POWER** light turns off.

### Power on or off the parent unit

- Press until the **POWER / LINK** light turns on.
- Press until the **POWER / LINK** light turns off.

### Adjust parent unit speaker volume

The speaker volume is preset to **Level 3** on the parent unit. You can adjust to your preferred sound level.

- Press to decrease the volume, and to increase the volume.

#### NOTE

- If you continue to press or when the volume reaches the minimum or maximum setting, the parent unit will beep twice.

### To mute the speaker volume

- Press repeatedly until the volume reaches the minimum.

#### NOTES

- When the parent unit is in mute, the visual sound indicator will still indicate the sound detected from the baby unit.
- To unmute, press repeatedly until it reaches your desired volume.

### Turn on or off the audio reminder

With audio reminder feature preset to on, the parent unit plays an audio reminder when it is connected to a baby unit. It reminds you to place the baby unit at least 3 feet (1 meter) away from your baby, and keep the cords out of the reach of children.

- Press and hold for 8 seconds when the parent unit is not in use. The visual sound indicators flashes for 3 times. The audio reminder is disabled.
- Press and hold for 8 seconds when the parent unit is not in use. The visual sound indicators flashes for 3 times. The audio reminder is enabled.

#### NOTES

- You can press or to adjust or mute the volume when the parent unit is playing the reminder.
- If the speaker volume of the parent unit is turned off, it will resume to the default volume level when the parent unit plays the reminder.

Frequency control	Crystal controlled PLL synthesizer
Transmit frequency	Baby unit: 902.7 MHz - 927.1 MHz Parent unit: 902.7 MHz - 927.1 MHz
Channels	62
Nominal effective range	Maximum power allowed by FCC and IC. Actual operating range may vary according to environmental conditions at the time of use.
Power requirements	Baby unit adapter: Input: 100-120V AC 60Hz; Output: 6V DC @ 400mA Parent unit adapter: Input: 100-120V AC 60Hz; Output: 6V DC @ 400mA
Parent unit battery	2.4V NiMH battery

## TECHNICAL SPECIFICATIONS

## 📺 BABY UNIT OVERVIEW

- 1** **(On/off)**  
Press to turn on or off the baby unit.
- 2** **Microphone**
- 3** **POWER light**
- 4** **Power jack**

## 📺 PARENT UNIT OVERVIEW

- 1** **Speaker**
- 2** **(On/off)**  
Press to turn on or off the parent unit.
- 3** **(Volume up)**  
Press to increase the speaker volume.
- 4** **POWER / LINK light**
- 5** **Power jack**
- 6** **Visual sound indicator**  
Indicate the sound level detected by the baby unit or show the volume level during speaker volume setting.
- 7** **(Volume down)**  
  - Press to decrease the speaker volume.
  - Press repeatedly until the volume reaches the minimum to mute the parent unit.
- 8** **(Battery indicator light)**
- 9** **Belt clip**
- 10** **Battery compartment cover**

## ☑️ BABY MONITOR LIGHTS AND TONES

### Baby unit light

- POWER** **POWER light**
- Lights off when the baby unit is off.
  - Lights on in green when the baby unit is on.

### Parent unit lights

- POWER / LINK** **POWER / LINK light**
- Lights off when the parent unit is off.
  - Lights on in green when the parent unit is on and linked to the baby unit.
  - Flashes in green when there is no link between the baby unit and parent unit, or when the parent unit is out of range from the baby unit.
- Visual sound indicator**
- The visual sound indicator has two functions. One is to show the sound level detected by the baby unit. The other one is to show the volume level during speaker volume setting.
- Sound level detected by the baby unit**
- One to three green lights indicate a moderate sound level detected by the baby unit.
  - Additional red lights indicate a higher sound level detected by the baby unit (e.g. baby crying loudly).
- Speaker volume level**
- One to three green lights indicate **Level 1** to **Level 3** of the speaker volume setting.
  - Additional red lights indicate **Level 4** to **Level 5** of the speaker volume setting.
- Flashes in red when the battery is low.

### Parent unit alert tones

- Low battery tone** • Beeps twice every 10 minutes when the battery is low.
- Out of range tone** • Beeps three times every 30 seconds when there is no link between the baby unit and parent unit, or when the parent unit is out of range from the baby unit.

## 🧤 GENERAL PRODUCT CARE

To keep this product working well and looking good, follow these guidelines:

- Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- DO NOT expose it to direct sunlight or moisture.
- Avoid dropping the product or treating it roughly.
- Clean with a soft cloth.
- DO NOT immerse the parent unit and the baby unit in water and do not clean them under the tap.
- DO NOT use cleaning spray or liquid cleaners.
- Make sure the baby unit and parent unit are dry before you connect them to the mains again.

## 📦 STORAGE

When you are not going to use the baby monitor for some time, store the parent unit, the baby unit and the adapters in a cool and dry place.

## 🗨️ FREQUENTLY ASKED QUESTIONS

Below are the questions most frequently asked about the baby monitor. If you cannot find the answer to your question, visit our website at [www.vtechcanada.com](http://www.vtechcanada.com), or contact **1 (800) 267-7377** for customer service.

Why doesn't the <b>POWER</b> light on the baby unit turn on when I switch on the units?	Perhaps the baby unit is not connected to the power supply. Connect the baby unit to power supply. The baby unit turns on.
Why doesn't the <b>POWER / LINK</b> light on the parent unit turn on when I switch on the units?	Perhaps the battery of the parent unit is depleted and the parent unit is not connected to power supply. Connect the parent unit to power supply and charge the parent unit battery. The parent unit turns on and establishes connection with the baby unit.
Why does the baby monitor not respond normally?	Try the following (in the order listed) for common cure: <ol style="list-style-type: none"> <li>1. Make sure that both baby unit and parent unit are on. Disconnect the power from the baby unit and the parent unit.</li> <li>2. Remove the battery from the parent unit.</li> <li>3. Connect the baby unit to the power supply again. The baby unit turns on.</li> <li>4. Connect the parent unit to the power supply again. The parent unit turns on.</li> <li>5. Wait for the parent unit to synchronize with the baby unit. Allow up to one minute for this to take place.</li> <li>6. Press  or  to adjust the speaker volume on the parent unit.</li> </ol>
Why does the baby monitor produce a high-pitched noise?	The units may be too close to each other. Make sure the parent unit and the baby unit at least 6.5 feet / 2 meters away from each other.
Why don't I hear a sound/ Why can't I hear my baby cry?	Make sure that both baby unit and parent unit are on. If you see the visual sound indicators light up, but there is no sound, then you may have muted the volume or set it to a lower level. Adjust the volume to a higher level.  If the visual sound indicators do not light up, and you cannot hear any sound, it is because the baby sound is too low for the baby unit to detect. This is normal. Place the baby unit at least 6.5 feet / 2 meters away from your baby.
Why does the parent unit beep?	The parent unit beeps three times every 30 seconds when the baby unit is out of range. Move the parent unit closer to the baby unit (but not less than 6.5 feet / 2 meters).  The parent unit beeps twice every 10 minutes and the  light flashes in red when the battery is low. Connect the parent unit to the power supply and charge the battery for at least 30 minutes.
Why does the parent unit  light flash?	The parent unit beeps twice every 10 minutes and the  light flashes in red when the battery is low. Connect the parent unit to the power supply and charge the battery for at least 30 minutes.
Why can't I establish a connection? Why is the connection lost every now and then? Why are there sound interruptions?	The baby unit may be out of range. Move the parent unit closer to the baby unit (but not less than 6.5 feet / 2 meters). Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible.

## OPERATING RANGE

This product operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, the baby unit and the parent unit can communicate over only a certain distance - which can vary with the locations of the baby unit, the parent unit, the weather, and the layout of your home. When the parent unit is out of range, it will beep three times every 30 seconds and enter searching mode. To improve reception, move closer to the baby unit (but not less than 6.5 feet / 2 meters).

## FCC AND IC REGULATIONS

### FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**WARNING:** Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. Caution: The baby unit must be installed to provide a separation distance of at least 20cm from all persons.

This Class B digital apparatus complies with Canadian requirement:

CAN ICES-3 (B)/NMB-3(B)

### Industry Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
  - (2) This device must accept any interference, including interference that may cause undesired operation of the device.
- The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specifications were met.

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

### FCC RF radiation exposure statement

**Caution: To maintain compliance with the FCC's RF exposure guidelines, place the baby unit at least 20cm from nearby persons.** For body worn operation, this parent unit has been tested and meets the FCC RF exposure guidelines. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. This equipment complies also with Industry Canada RSS-102 with respect to Canada's Health Code 6 for Exposure of Humans to RF Fields.

## THE RBRC SEAL

The RBRC seal on the Ni-MH battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada.

The RBRC<sup>®</sup> program provides a convenient alternative to placing used Ni-MH batteries into the trash or municipal waste, which may be illegal in your area.

VTech's participation in RBRC<sup>®</sup> makes it easy for you to drop off the spent battery at local retailers participating in the RBRC<sup>®</sup> program or at authorized VTech product service centers. Please call **1 (800) 8 BATTERY** for information on Ni-MH battery recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

The RBRC seal and 1-800-8-BATTERY<sup>®</sup> are registered trademarks of Call2recycle, Inc.

## LIMITED WARRANTY

### What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

### What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

### How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is longer.

### What is not covered by this limited warranty?

This limited warranty does not cover:

1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation or handling, neglect, inundation, fire, water or other liquid intrusion; or
2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech; or
3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna systems; or
4. Product to the extent that the problem is caused by use with non-VTech accessories; or
5. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible; or
6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
7. Product returned without a valid proof of purchase (see item 2 on the following part); or
8. Charges for installation or set up, adjustment of customer controls, and installation or repair of systems outside the unit.

### How do you get warranty service?

To obtain warranty service in Canada, please visit our website at [www.vtechcanada.com](http://www.vtechcanada.com) or call 1 (800) 267-7377.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited warranty.

### What must you return with the Product to get warranty service?

1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and
2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and
3. Provide your name, complete and correct mailing address, and telephone number.

### Other limitations

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification. State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

**Please retain your original sales receipt as proof of purchase.**

## 🔌 CABLE MANAGEMENT
